

TOWN OF PEACE RIVER

Approved 2020 Operating and Capital Budget

OUR MISSION

Our mission is to provide excellent, efficient and effective delivery of public services for the economic, environmental, social and cultural well-being of our community.

OUR VISION

Our vision is that the Town of Peace River be the community of choice in the Peace Region.

GUIDE TO THE BUDGET DOCUMENT

The primary purpose of this document is to provide Council and citizens with a comprehensive overview of the town's budget, town services and operations, and the resources that fund those services. This document first outlines the goals and issues involved in developing the budget. Then, it provides a discussion on the financial structure of the town with an overview of the town's various funds, where the money comes from and how it is spent. Details about the budget, forecasted revenue and appropriated expenditures follow, along with an in-depth look at town departments and programs. In addition to this document Town staff receives a detailed line item budget document to assist them throughout the year.

Introduction

The purpose of this section is to provide the reader with general information about the town's history and economy. The town's governance and organizational structures are also in this section.

Budget Guidelines

Budget guidelines gives readers information on the process used to create the budget, guiding principles and parameters in budget preparation and assumptions within the budget. A description of the funds used by the town are shown, guidelines and policies are summarized to assist readers, and the budget schedule and calendar are shown.

Budget Overview

Information in this section should give the reader an understanding about the services the town provides to our citizens and the costs incurred in the provision of those services. It includes the sources of funding that support the town's operations and capital needs and expenditures to provide services to residents. This section also contains summaries of the 2020 budget with base budget and Council adjustment information, explanations of Council adjustments and departmental and fund summaries.

Budget Detail

Presented in this section are summaries and details of the 2020 operating budget by department. For comparison, the 2019 approved budget and 2019 projected actual amounts are presented alongside the 2020 figures. Following the departmental summaries is information on the town's revenues.

Capital Budget

This section discusses the capital improvement plan and details the capital outlay and projects that are included in this budget. There is also information and forecasts on the town's long-term debt and funding sources for the capital program.

BUDGET SUMMARY

The Approved 2020 Operating and Capital Budget continues with the framework, principles and foundation started in previous years to present a comprehensive financial plan and communication document to Council, ratepayers and residents of the Town of Peace River.

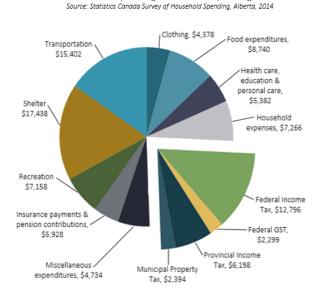

Management and staff have spent a significant amount of time preparing detailed work plans and budgets to ensure the efficient operation of the Town and the responsible utilization of taxes collected from ratepayers.

The 2020 budget was made more challenging as staff had to deal with the impacts of the Provincial budget. Affecting both the operating and capital budgets, reductions in Provincial funding are further straining limited revenue or funding options the Town is able to utilize. These impacts include:

- reduction in MSI funding totalling \$162,000, with a similar reduction expected in 2021,
- reduction in levies paid through grants in lieu of taxes program totalling \$61,600, with similar reduction in 2021,
- reduction in fine revenue of approximately \$21,000, as the Province is retaining a greater portion of processing and other fees,

Monthly Average Household Spending

employment grants reductions totalling \$25,500.

Staff have incorporated these items within the budget and moderated departmental budgets to minimize tax rate impacts.

Details on the budget summary can be found on Table 1 on page 20.

Because of this, there are fewer service level adjustments of requests than Council would typically see, as the prevailing economic and budgetary environment would make it difficult to entertain significant requests. Service level changes for 2020 include:

- the Chamber of Commerce's request for the new membership program,
- internally charging for fire protection services at the Peace River Regional Airport,
- two casual summer labourer positions for the public works department,
- funding for the ladder truck for the Fire Department,
- changes to pool and other recreation rates.
- adjustments to library funding.

These items are shown in detail on with Table 2 on page 22.

Based on the base budget amounts and approved service level adjustments, a tax revenue increase of \$371,360 will be required. This equates to an approximate increase of 3.3% to tax revenues.

In additional, Council has approved a 68 cents (or 12.6%) increase on water and wastewater rates, which is required to cover operational, maintenance, major repair and capital cost increases to the fund.

Capital Budget

The 2020 Capital Program includes 16 projects totalling \$7.699 million. A summary listing of the projects can be found in the table below:

Project	Amount
Hardware Replenishment	24,000
Total Information Systems	24,000
Front Line Fire Apparatus	1,400,000
Decontamination equipment	30,000
Commercial Washer/Extractor	20,000
Total Protective Services	1,450,000
Neighbourhood Renewal Prog.	1,800,000
Operations Heavy Equipment	270,000
Pavement Overlay Project	250,000
Sidewalk Replacement	75,000
Facility Security System Upgrades	36,000
Columbarium	40,500
Town Hall Cladding Upgrades	6,000
Total Works & Equipment	2,477,500
Tractor/Toolcat	50,000
Total Recreation & Cultural	50,000
Lift Station 4	32,000
Shaftesbury Sewer Main - Pt 1	3,240,000
STP Aeration Tank Cleaning	375,000
Meter Read Software	50,000
Total Water & Wastewater	3,697,000
Total Capital Program	7,698,500

As mentioned before, the capital requirements facing the Town are significant and capacity needs to be built into tax rates and water rates to fund the capital improvement plan.

Looking Ahead

During priority workshops, Council has collectively identified key priorities to target during their term:

- manage the tax burden to property owners,
- improve efficiencies within the organization and continue and strengthen existing partnerships,
- improve recreation service delivery and infrastructure, and
- build capacity for operating and capital programs within the budget.

The budget meets all these objectives.

While preparing the budget, trying to create an accurate budget dealing with the true needs of the Town is proving difficult in this era of dwindling growth. Revenue options for municipalities are limited, and costs for municipalities tend to increase at a rate greater than typical CPI. As such, staff and Council will continue to face limited options to mitigate costs to ratepayers.

This budget document was created as a communication tool for the residents of Peace River. This document is the result of a significant amount of work by Council and staff, as many hours were spent identifying, developing and confirming goals, developing operating plans and prioritizing programs and projects.

TOWN PROFILE

Situated approximately 490 km northwest of Edmonton and 195 km northeast of Grande Prairie, the Town of Peace River is the second largest urban centre in northwestern Alberta and provides a full range of institutional, recreational, cultural and commercial services to the Peace region.

The Beaver people (Dunne-za) are the longest continuous occupants of the Peace River Country. By the late 18th century, the Woodland Cree (Kristineaux) people ventured west into the Beaver territory. They were one of the first nations to trade with European fur traders, such as Alexander Mackenzie, who represented the North West Company on his journey to the Pacific Ocean by way of the Peace River and Fort Fork (approximately) 15 miles southwest of what is now the Town of Peace River.

The Peace River was an essential highway for transporting passengers, furs, machinery, livestock, grain and lumber by various means – from the birch bark canoes of the Beaver, Cree and early explorers; to the scows and York boats of the Klondikers and traders; to the steamboats and gasoline-powered boats of the freighting companies and settlers.

The town site of Peace River Crossing/Landing was surveyed in 1908; incorporated as a village in 1914; and as a town in 1919. The name of the community was shortened to only Peace River by a dictum from Ottawa in 1916. In 1921, its population numbered 980. Population growth was slow until the latter half of the 20th century, at which time steady growth was experienced. (Source: Peace River Museum, Archives and Mackenzie Centre 2010.) The current population of the town is 6,842.

Nestled within the majestic valley of the Peace River, the Town of Peace River enjoys one of the most beautiful outdoor settings in Alberta. The surrounding forests, streams, rivers and picturesque valley is the perfect setting for those looking for a place to raise a family or simply to enjoy life's natural pleasures. The Peace, Smoky and Heart Rivers converge near the Town and from surrounding outlooks and observation areas such as Sagitawa Lookout, Misery Mountain, and Kaufman Hill, where residents and visitors are treated to the outstanding scenic display of the 3 (three) rivers

merging in the valley below. Easy access to major transportation routes has made the Town of Peace River a thriving regional trade and service centre to northwestern Alberta.

The Peace River economy is resource and agriculture based including, oil, natural gas, and forestry sectors. The Town has had the opportunity to take advantage of an abundance of established and potential energy reserves which fuel a thriving oil and gas industry, substantial forest reserves that feed a thriving forestry industry and fertile farmland that produces traditional grain crops (25% of Alberta's canola and 83% of the province's forage seed are produced in the region). The Mercer International Inc. pulp mill and several resource extraction organizations, located in the rural areas, are major employers for the Town. Although Peace River's economy is recognized as a resource based community, it is important to note that the health, government, and education sectors are also major employers.

The transportation network within the Peace Region is vital to its survival and connects residents and industry to the rest of Alberta and North America. The highway system consists of high quality roadways that provide easy access to communities in the Peace Region and are vital to the shipment of goods to the north and south. The Town has the Province's only rail crossing over the Peace River, and is a vital link in the shipment of goods by rail. Air travel is also available via the Peace River Regional Airport.

GOVERNANCE

The Council of the Town of Peace River is made up of a Mayor and 6 Councillors, all elected at large. "At large" means general area, that is, Peace River is not divided up into various geographic wards or ridings. Each councillor has a duty to represent and work for all residents and businesses in the town in a nonpartisan way. The most recent Municipal Election was held in autumn of 2017. Council's term runs for four years; the next election will be held in autumn of 2021.

The Peace River Council is responsible for setting public policy, approving the town's annual budget, entering agreements, providing executive leadership, making planning and development decisions, and adopting new codes and bylaws.

ORGANIZATIONAL CHART

COMMITTEES OF COUNCIL

Local boards, committees and external organizations are a key component of Council's governance model. There are a variety of boards and committees, each having different levels of association with the town. Councillors are expected to attend all meetings of the boards and committees they are members of and report back to Council the activities of these organizations.

Local boards are generally established by legislation and may have a member of Council on their board. They have authority to address their responsibilities as determined under the relevant legislation. An example of a local board would include the Peace River Municipal Library Board.

Affiliated boards and/or organizations are organizations are governed by legislation or are

provided for under the Municipal Government Act. Council may appoint one or more board members to the organizations and may provide funding through grants or service agreements. Otherwise, these organizations operate somewhat independently from the town. Examples are North Peace Housing Foundation or Peace Regional Waste Management Company.

Statutory committees are permitted or required by provincial legislation and perform functions as specified in the relevant legislation. Examples include the Municipal Planning Commission or Subdivision and Development Appeal Board.

Advisory committees provide advice and recommendations to Council as requested on areas within their mandates with no authority for decision making or independent actions. Comprised of citizens and members of Council, members are appointed by Council.

Board or Committee	Description	Primary Representative(s)
Ad-Hoc 55+ Games Bid	Assist in development of bid and completing bid tour.	Downing
Ad-Hoc Medical Centre	To discuss, promote and plan for the future of a new medical clinic that	Manzer
Committee	will serve the needs of the region.	
Assessment Review Board	Hear assessment complaints as the nature of the complaint may permit	n/a (community
(Joint Regional)	or require in respect of assessment complaints made by an assessed	members)
	person of a Regional Partner Municipality.	
AUMA Police Act Working	Conduct a comprehensive review of the Alberta Police Act and develop	Needham

Peace River Municipal Library Board	General management, regulation and control of the Peace River Municipal Library.	Downing
Peace River Museum, Archives & Mackenzie Board	Preservation and celebration of Peace River's heritage and in supporting the museum in its role as a place of community engagement.	Good
Peace Rural Fire Protection Area Advisory Committee	To make recommendations to the Council of each Municipality regarding the Peace Rural Fire Protection Area for Operation and capital budgets and delivery of fire protection services.	Ford, Schamehorn
Regional Recreation Facility Committee	To review existing work of the Baytex Energy Centre Rehabilitation Committee – Multiplex Concept, in conjunction with the preliminary design of the new arena to determine a final design plan.	Needham
Peace Regional Subdivision and Development Appeal Board (PRSDAB)	Hear appeals with respect to decisions of the development and subdivision authority and render decisions based on the evidence presented.	Ford
The Mighty Peace Watershed Alliance	Watershed Planning and Advisory Council created under Alberta's Water for Life strategy.	Manzer
Town of Peace River Centennial Committee	This committee will be responsible for the development of activities related to the celebration of the TOPR 100th Anniversary	Manzer
Unsightly Premises Appeal Board	Empowered to hear and determine appeals lodged against Clean Up Orders issued by an Enforcement Officer.	Council

BUDGET GUIDELINES

The budget for the Town of Peace River is a comprehensive guide for the financial decision-making and operational management throughout the fiscal year. The budget is not only a financial plan but also a performance plan to assist in accomplishing the strategic goals set forth by Town Council. This section describes the policies and procedures that govern the preparation and implementation of the town budget as well as managing the short and long-term finances and investments of the town.

Departmental budgets are prepared and justified using two components - a continuation budget (Base Budget) and a proposed change or expansion budget (Service Level Adjustments.) The base budget includes inflationary increases and costs incurred by the town beyond normal inflation as well as expenditures where the town has made a legal or budgetary commitment. The inclusion of these costs in the base budget will allow the town to maintain the same high levels of service provided in the current year with similar operating funds. These costs include projects and infrastructure expenditures reflected in the annual Capital Improvements Plan which includes street resurfacing costs, vehicles, equipment, various specific capital projects and debt service payments for capital commitments. Other ongoing annual costs in the base budget includes wage settlements, employee and dependent health insurance, and numerous operating costs needed to provide daily services.

All other requests are defined as "proposed changes" during budget deliberations and shown as "Council adjustments" or "deliberation items" in the budget. These are budgeted in a separate column and categorized in a manner such that Council and residents can understand the various dynamics involved in making funding decisions. Dynamics include new services or changes to service levels which must be set by Council. Justifications for proposed changes are based on Council's goals as well as individual departmental goals and objectives.

Also driving the services and budget process provided by the town are the strategic priorities and financial policies adopted by Council. These financial policies address revenues, cash management, expenditures, debt and risk management, capital needs, and budgeting and management.

The following guidelines were paramount in budget preparation:

- · keep tax rates competitive,
- · mitigate negative future budget changes,
- · maintain existing service level standards,
- include a proactive infrastructure funding plan into the base budget, and
- include the funding for the current year capital plan and present the five-year capital forecast.

BASIS OF BUDGETING

The budget is prepared on a basis generally consistent with Generally Accepted Accounting Principles (GAAP). The town's funds consist of the General Fund, Capital Fund and Reserve Fund. Water and wastewater revenues and expenses are tracked within the General Fund and the rate is self-funded.

Governmental fund type budgets are developed using the modified accrual basis of accounting. Under the modified accrual basis revenues are estimated for the fiscal year if they are accrued (amounts can be determined and will be collected within the current period). Principal and interest on general long-term debt is budgeted as expenditures when due, whereas other expenditures are budgeted for based on the timing of receipt of the good or service.

Revenue forecasts are conservative in nature; known changes to assessment data (net of appeals) are incorporated as is, while other items are increased by very moderate amounts.

Expenditure items are forecast based on known amounts, or based on projections or trends. Increases for anticipated unknown items are typically around 1% to 3%.

The following items list the parameters and factors staff incorporate in preparing the town budget:

- continue zero-based budgeting and outcome based budgeting format,
- incorporate policies into 2020 budget; identify nondedicated fund balances, and define purpose or recommend usage alternatives,
- examine five year historical trending in all revenue and expenditure accounts,
- analyze and update financial policies and procedures,
- fund long term future obligations and designated reserve accounts,
- utilize debt levy stabilization account to offset increase in debt service,
- examine current and alternative revenue sources that promote long-term financial sustainability,
- examine water and wastewater fee structures,
- examine adequacy and equity of fees and revenues for services and programs,
- maximize provincial expenditure aids to offset tax levy,
- examine most cost effective way of providing service and conducting business,
- examine and, where applicable, reduce redundancies in service provisions,
- maintain preventative infrastructure maintenance program and Capital Improvements funding,
- examine additional energy efficiency initiatives to offset rising energy costs, and
- heightened awareness and promotion of recycling to provide sustainability and costs savings.

BUDGET REVIEW PROCESS

Each year, the Finance Department releases budget guidelines to provide guidance and assist in the development of the annual budget. The operating and capital budgets undergo multiple layers of review.

Departmental Review

Operating and Capital budget submissions are prepared by the respective department and are reviewed and approved by the Department Head before final submission.

Budgeting Department Review

The Finance Department in cooperation with the relevant Department Head will review and analyze the operating and capital submissions for adherence to the guidelines. Once all submissions are received, budgets are consolidated, a corporate review/analysis is conducted and the results are presented to the Management Team.

Management Team Review

The next step in the process is to present the draft operating and capital budgets to the Management Team for review and recommendation. The Management Team is comprised of a representative from all operating areas of the town. During this time, Management assesses the operating and capital budget prior to distribution to Council.

Council Review

All members of Council will review and vote on the recommended operating and capital budgets. Council holds the final approval of the budget and may amend the budgets prior to approval.

FUND ACCOUNTING

The financial accounts for Peace River are organized on the basis of funds or account groups. In governmental accounting, a fund is a separate self-balancing set of accounts used to show operating results for a particular activity or activities.

For accounting and presentation purposes, the departmental and account structure mirror the ones prescribed by the Provincial Government through the Financial Reporting and Accounting Manual.

FUNDS

General Fund

This fund includes all municipal programs and services not accounted for in any other fund. This is the largest of the funds and the cost of the activities is recovered through municipal property taxes, user fees and other revenue sources. The General Fund also includes a provision for contributions to Reserves and Reserve Funds. For example, in an election year, election expenditures are financed by a transfer from the Election Reserve; conversely in non-election years contributions are made to the Election Reserve. Expenditures and revenues related to the provision of water & wastewater services are accounted for as part of the General Fund. Although water & wastewater activities are accounted for in this manner, staff manage the water & wastewater revenues and expenditures on a net basis with contributions and withdraws from the water & wastewater reserve being managed as not to impact on the general tax rate.

Water & wastewater revenues and expenses are tracked within the General Fund and the fund is self-funded, including net operating expenses, capital contributions and debt charges.

Capital Fund

The Capital Fund includes all expenditures and financing sources to acquire or contract town infrastructure such as roads, building, vehicles, computer information network, water & wastewater infrastructure, recreation facilities and parks improvements. The capital fund is maintained with two components: one for all general municipal assets and

the other reflects the transactions of the town's water and wastewater infrastructure needs.

Reserve Fund

A reserve is an appropriation from net revenue at the discretion of Council. The town does not apply interest earned to the specific reserves; it is reported as General Fund earnings.

A reserve fund is an allocation of accumulated net revenue. A reserve fund differs from a reserve in that reserve fund assets are segregated and restricted to meet the purpose of the reserve fund. There are two types of reserve funds: obligatory reserve funds and discretionary reserve funds. Obligatory reserve funds are created whenever statute requires. Discretionary reserve funds are established by Council to finance a future expenditure for which it has authority to spend.

FISCAL GUIDELINES

Balanced Budget

The town is required under the Municipal Government Act not to plan for a deficit. To achieve this, the budget is prepared on a financial viable basis and is monitored and controlled to enhance the final year-end results to achieve a balanced budget. As such, all budgeted revenues must equal budgeted expenditures.

Replacement Funding

Separate funds exist for fleet and equipment replacement. Each cost center in the General and Water & Wastewater Fund contributes for future replacement of vehicles and equipment. The contribution is based on the projected replacement cost/anticipated useful life of the fleet.

When a vehicle is replaced, it must be disposed of to avoid adding to the fleet inventory and to avoid unnecessary maintenance and operation costs.

Reserves

Peace River maintains a General Fund "rainy day" reserve of approximately \$1,042,257, with the hopes of obtaining our goal of 15% (or \$3,338,000) of total fund expenditures by 2027.

Peace River also maintains targeted or allocated reserve funds. These reserves are earmarked for specific road, sidewalk, water & wastewater, recreation and equipment renewals.

Revenue

Peace River is conservative in revenue estimates. Revenues resulting from possible changes in laws or ordinances are not included in revenue estimates. Peace River avoids dependence on temporary revenue sources to fund recurring government services.

Accounting, Auditing and Financial Reporting Policies

An independent audit is performed annually. Peace River produces a Consolidated Annual Financial report in accordance with Generally Accepted Accounting Principles (GAAP) as outlined by the Public Sector Accounting Board (PSAB).

Financial Planning

Peace River adopts an annual Capital Budget and four year forecast that plans for all improvements needed. Anticipated maintenance costs are included for all projects. The first five years of additional maintenance costs are combined with other data gathering techniques to project operating results for five years. This information is the basis for developing the next years budget.

Departmental Budgeting

For accounting and budgeting purposes, the town's accounts are segregated by department or area of responsibility. There are many reasons to budget this way: it shows a reasonable approximation of revenues and expenses that are attributable to each department, it allows for transfers between departments and to allow for easier reporting to Provincial or Federal agencies or service partners.

Each department will have its own set of activity revenue and expenditure accounts with the intent of showing the Tax Levy Requirement (TLR) – the amount of taxes and other corporate revenues that are required to operate that department. Departments that have significant activity revenues – recreation or fire protection - will have a lower TLR than departments such as finance or public works. This isn't to penalize any one department for their TLR but to provide additional information to Council and residents.

FISCAL AND ACCOUNTING POLICIES

The town has an extensive array of principles, practices and policies which govern the financial administration of the entity. The general financial objectives can be summarized as follows:

- Financial Viability to maintain a financially viable municipality that can provide high quality services for our current and future ratepayers.
- Financial Management to enhance the fiscal position of the town through sound financial management, both short-term and long-term.
- Financial Flexibility to maintain financial flexibility to anticipate and meet changing economic conditions.
- Legislative Compliance the town follows the legislative financial requirements of the Municipal Government Act. In addition the town meets or exceeds all policy statements of the Public Sector Accounting Board, which is governed by the Canadian Institute of Chartered Accountants.

The following provides an overview of the specific financial policies, controls and planning framework of the town. The town's fiscal period is January 1 to December 31.

Operating Budget Control Process

The town has policies in place to allow department's sufficient latitude to effectively manage programs and service delivery for which they are accountable. These policies establish financial accountability and spending authorities for budget allocations. The general accountabilities and allowable adjustments are as follows:

- Departmental services approved by Council are carried out within the department's net expenditure approvals, and that deviations from this policy are reported to and reviewed by the CAO or Council, as set out herein.
- Department Directors are accountable to the CAO and Council for their spending, revenue generation and service delivery performance against budget approvals. The Manager of Finance is to ensure that these variances are detailed in the "Financial Report" to Council.
- Revenues that are received beyond the level provided for in the budget shall not be spent or

- committed without Council approval. At year-end, such remaining revenues become part of the town surplus unless specific approvals are sought to move monies into reserves.
- Reallocations between expenditure classifications (excluding salaries and benefits) that do not affect the net operating budget of a specific program may be made by a Department Director.
- The transfer of approved budgets requires the recommendation of the Department Head and concurrence of the CAO, prior to Council approval.
- All events (i.e. unforeseen grants, etc.) after the original adoption of the budget will be reported as a variance against budget.

Capital Budget Control Process

The following points highlight the capital budget control process:

- Council, in adopting the Capital Budget, has determined the sums required for each capital project listed in the Capital Budget. The Director of Finance certifies that funding for the capital projects in the Capital Budget are within the town's financial debt limit allowable by the Province of Alberta.
- All Capital Budgets and departmental reports to Council seeking authority for the release of funds and commencement of the capital project or amendments to the capital program must first be reviewed by the Finance Manager to ensure accuracy, financing sources and financial impact and then reviewed by the CAO before being submitted to Council for approval.
- The Director of Corporate Services as part of the annual capital budget submission reviews all prior years' capital budget approvals. This review forms part of the annual Capital Budget process.

Financial Planning Policies and Principles

The financial plan which covers both the operating and capital budgets for all funds, encompasses the following principles:

 Balanced Budget – the town is required under the Municipal Government Act not to plan for a deficit.
 To achieve this, the budget is prepared on a financial viable basis and is monitored and controlled to enhance the final year-end results to achieve a balanced budget. As such, all budgeted revenues must equal budgeted expenditures.

BUDGET GUIDELINES

- Long Range Perspective all budgets are prepared with a long-term perspective to ensure affordability and equity to the ratepayers. As such, all programs and projects within the operating and capital budgets must be realistic.
- Proactive Asset Management the infrastructure of the town is reviewed on an ongoing basis to assess its condition. Proactive maintenance and rehabilitation programs are then programmed into the budget process.
- Reserves and Reserve Funds shall be utilized by the town to assist in financial planning.
- The establishment of specific revenues to provide for tax rate stabilization, the replacement of infrastructure, facilities and future capital projects and to manage the debt financing needs of the town.

Purchasing Practices and Principles

To ensure the most cost effective and cost efficient methods are used to purchase goods and services for the town in the manner approved by Council.

The town's purchasing decisions are made without favour or bias, that there is equal opportunity for qualified suppliers to bid on business, and that there is a high standard of financial stewardship.

All purchases for the town must be governed by the financial limits and procurement methods established under the town's Purchasing Policy.

The Town also approved a Local Preference within the Purchasing Policy, to allow for buy-local opportunities when considering purchasing evaluations.

Cash Management

The town makes every reasonable effort to control the town's cash needs, with a goal of maintaining adequate working capital, maximizing investment opportunities, internal borrowing and debt repayment acceleration. The reduction of service charges and other financing costs is also a goal of cash management.

Revenue and Expenditure Policies and Principles
Revenue Diversification – the town undertakes various
reviews to ensure the non-tax base for the town is
maximized. In terms of rates and fees, Council is
informed during the budget process of the current cost
recovery and adjustments made based on policy.

- Use of One-Time Revenue these are not used to fund the base budget or ongoing program costs. In some cases they may be utilized to fund the startup cost of a program; however, are generally earmarked for one-time expenditures and utilized to supplement the available capital program funding.
- Expenditures in addition to the expenditure controls detailed above under the operating and capital budget control processes, monthly reports are prepared for management to monitor actual to planned results.
- Purchasing Policy purchases for the town must be governed by the financial limits and procurement methods established under the town's Purchasing Policy.

Debt Management

Council reviews the debt level and forecasted level as part of the capital budget review process. It is the goal of Council to ensure debt is fiscally managed. The practices and actions of Council ensure:

- a strong financial position is maintained,
- encourage planning and budgeting of future capital projects,
- limit and ensure debt is manageable from both a tax rate and user rate viewpoint, and
- debt service burden shall be significantly below the allowable Provincial Limit.

Tangible Capital Assets

The town complies with the Tangible Capital Asset requirements of the Public Sector Accounting board. The annual financial statements are prepared to reflect historical cost and amortization. The town will comply with the future requirements to integrate these financial statements requirements into its budgeting practices.

Basis of Accounting

The town prepares its financial information in accordance with the Generally Accepted Accounting Principles for local governments as recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants. The town's sources of financing and expenditures are recorded using the accrual basis of accounting. This basis recognizes revenues as they become available and measurable and expenditures as they are incurred and measurable

as the result of receipt of goods or services and the creation of a legal obligation to pay. This is also the basis for developing the town's budget.

BUDGET SCHEDULE

Summer 2019

Council workshop and goal setting, finalize Council priorities.

July to September 2019

- Work with external service partners regarding budget parameters and pressures.
- Draft budget guidelines and parameters discussed among town staff.
- Update and distribute draft budget information and spreadsheets to department heads.

October to November 2019

- Meet with affected sub-committees and organizations.
- Capital project department requests due.
- Finalize budget priorities with Council.

December 2019

- Meet with affected sub-committees and organizations.
- Finalize operating and capital budgets.
- CAO approves budgets to be forwarded to Council.

BUDGET CALENDAR

The schedule below documents the expected schedule of public meetings and budget deliberations prior to the budget being adopted by Council.

Monday, January 27, 2020 at 5:00pm

- Operating and Capital Budget released
- Distribute to stakeholders and public
- Overview of Operating and Capital Budget

Monday, February 3, 2020 at 5:00pm

- Public input
- Budget review and deliberations

Monday, February 10, 2020 at 5:00pm

- Public input
- Budget review and deliberations

Monday, February 24, 2020 at 5:00pm

- Budget review and deliberations
- End of deliberations, staff prepare final budget

Monday, March 9, 2020 at 5:00pm

Budget approval

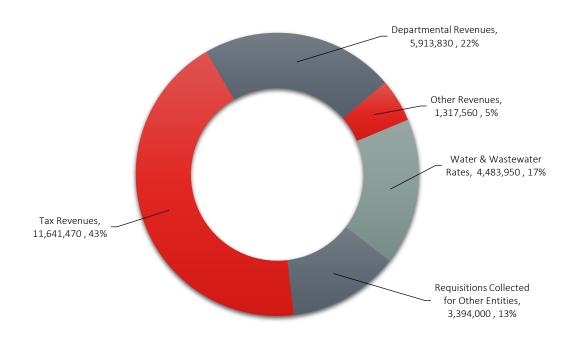

SOURCES AND USES OF FUNDS

The total source of funds for the 2020 operating budget is \$26,750,810. This consists of new revenue and funds carried forward from the previous fiscal years. The revenue detail for each area is found within the budget document – either in the summary section or in the budget detail for that department. The adjacent chart shows the amount of funding sources by major category.

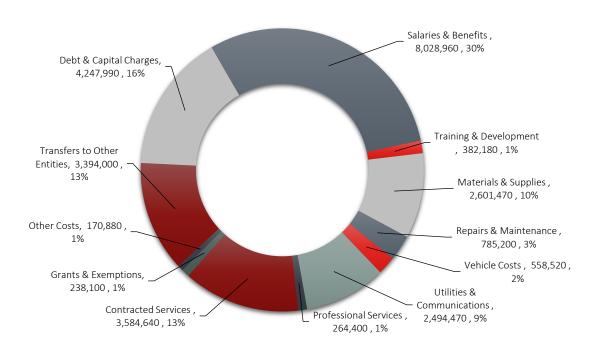

Revenues are also shown in detail within their own section, starting on page 78.

OPERATING FUNDING SOURCES

The total uses of funds for the 2020 operating budget is \$26,750,810. The adjacent chart shows the amount of sources by cost component.

OPERATING EXPENSES BY COST COMPONENT

CONSOLIDATED BUDGET SUMMARY

The Consolidated Budget Summary shows the expenditures and revenues of the Town by component type and the budget position of the General Fund. Under the 2020 Proposed Base Budget (the amount needed to maintain existing services) there is a budget deficit of \$279,460.

Council then approved service level initiatives which can be found on Table 2.

The first column (2020 Budget) shows the budget amounts including all the service level initiatives approved by Council. The base budget and service level initiatives changes require taxation revenue increase of \$371,360 or 3.3%. Factoring in market value or building changes to assessed properties within the Town, ratepayers would expect to see tax bill increases of around 3.1% on average.

Consolidated Budget Summary

WATER AND WASTEWATER RATES

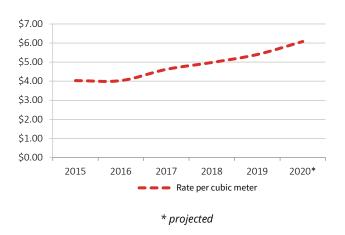

Water and wastewater operation provides for furnishing water and sanitary sewage disposal services to industrial, commercial and residential areas within the town and some surrounding areas.

The water & wastewater fund receives its revenues mostly from user fees, with users receiving a monthly bill based on actual consumption. Other revenues consist of bulk water sales, sewer dumping charges, interest on outstanding bills and other miscellaneous items.

For budget purposes, water & wastewater activities are accounted for separately than general fund accounts.

Water Rate - Last Five Years

For 2020, Council approved a rate increase of 68 cents per cubic meter or 12.6% on existing rates.

This increase is required to fund required water and wastewater operating (staffing, utility and maintenance costs) and capital projects in 2020 and beyond.

See pages 52-55 for more information on water and wastewater details.

SERVICE LEVEL INITIATIVES

Specific new initiatives or service level adjustments have been included in the budget.

These specific items are summarized in Table 2. The items in this table "Service Level Deliberation Items" presents those items which staff feel should receive consideration by Council, or those items which were referred to the budget process. During the review of the budget and during public consultations Council may receive additional requests for funding. Each of these potential new items will be reviewed in the context of the overall financial viability and Council direction. Some items will likely require further analysis and may have to be deferred on this basis. These initiatives will be reviewed during the next budget year to seek Council consent to continue for future years, or will be removed if a single year item.

These items are presented as "2020 Deliberation Items" on the departmental tables.

Summary of Deliberation Items

Table 2

	Service Level Adjustment	New Program or Service	Subtotal	Less Revenue Offset	Service Level Changes
Expenses					
Chamber of Commerce sponsorship	5,500	-	5,500	-	5,500
Fire protection - airport	-	73,000	73,000	(73,000)	-
Public Works casual labourers	44,070	-	44,070	-	44,070
Grants to Organizations	(5,500)	-	(5,500)	-	(5,500)
Capital funding – fire protection	58,900	-	58,900	-	58,900
Revenues					
Pool rate changes	(20,600)	-	(20,600)	-	(20,600)
Other recreation rates	(390)	-	(390)	-	(390)
Total	81,980	73,000	154,980	(73,000)	81,980

EXPLANATION OF SERVICE LEVEL INITIATIVES

Chamber of Commerce Sponsorship Program

The Peace River & District Chamber of Commerce is proposing a Community Partner membership for 2020.

Rather than Council deciding on Chamber items or events through Grants to Organization or ad-hoc requests, the Community Partnership membership captures the majority of the items that the Town participates in, plus other benefits such as promotional or advertising opportunities.

This amount was offset by a decrease in normal Grants to Organizations funding.

Fire Protection Peace River Regional Airport

For budgeting and accounting purposes, the Town plans to charge fire protection costs incurred at the Peace River Regional Airport and recovery them through the fire department.

This is part of a greater movement towards activity-based costing and allocation the financial impact of activities to determine the true cost of service provision. As is, there is no financial impact to the Town in 2020.

This is shown as a service level adjustment due to the cost impact to the airport, which receives other direct forms of funding in addition to Town taxes.

Public Works Casual Labourer Positions

In evaluating the Public Works staff levels required to deliver the current level of service and the corresponding supervision requirements, permanent staff adjustments were made in 2019 to 13 Operations staff (not including the Foreman and Superintendent). In evaluating the overall staff requirements during the evaluation process, it was identified that there would still be a shortfall in summer months of five staff which are the prime construction and maintenance periods for Public Works. Administration is proposing providing two staff for twenty-two weeks each to augment the Public Works permanent staff. The

estimated cost for this addition would be \$44,070 including wages and required employer contributions.

Capital Funding - Fire Protection

During budget deliberations, Council approved the purchase of a ladder truck for the fire department opposed to the standard pumper truck included in the proposed budget. The additional cost to do this is \$58,900 per year, and has been included in the 2020 budget.

Pool Rate Changes

Council received information and approved rate changes for the pool, increasing revenues by approximately \$20,600 in 2020.

Other Recreation Rates

During deliberations, Council approved 2.0% increases to other recreation items such as summer programs and field rentals, totalling \$390 in 2020.

EXPENDITURES BY DEPARTMENT

Total Expenditures by Department show the total departmental costs without any revenue offsets. Debt charges or contribution to other funds are shown as their own line item.

Expenditures by Department

DESCRIPTION OF REVENUE AND EXPENDITURE TYPES

To assist the reader, these descriptions explain the categories shown in the departmental and summary tables.

REVENUES

Departmental Revenue

Departmental revenue includes revenues that can be directly attributable to the activities of a department or program. These revenues are broken down into three categories:

- revenue that is generated due to the actions of the department. Examples of activity revenue are water & wastewater connection charges and fees, planning fees and recreation revenues for day camps or programs,
- revenues that includes grants from third parties that are allocated to specific programs or activities; examples of grants are funding for protective services or recreation programs, and
- revenue that cannot be generally categorized within other revenues but attributable to a specific department. This includes the water & wastewater rate or internal allocations.

Tax Revenue

Taxation is the major source of revenue for the town. Tax rates to be applied to the various property classes are determined by the total tax levy requirement and the allocation by class of the assessed current market values of real property within the town. This category

includes general levies, payments in lieu of taxes and local improvement rates.

Other Corporate Revenue

Includes revenues that cannot be generally attributable to any one department or activity. Examples of other corporate revenue include interest revenue, equalization grants, utility dividends and other general grants or miscellaneous income.

Requisitions Collected for Other Entities

Funds collected for third-party organizations that have the ability to requisition property taxes on our residents, in this case for the North Peace Housing Foundation and for educational purposes.

EXPENDITURES

Salaries & Benefits

Remuneration for salary, benefit and honorarium expenses.

Training & Development

Expenses consist of mileage claims, meeting costs, training, conferences and memberships.

Materials & Supplies

Includes most general purchases including office supplies and equipment, hardware & software, tools and equipment, along with other miscellaneous items.

Repairs & Maintenance

Refers to repairs and maintenance costs associated with building or larger pieces of equipment, such as pumps or building components.

Vehicle Costs

Fuel, repairs, maintenance and insurance costs relating to vehicles and smaller or mobile pieces of equipment.

Utilities & Communications

Telephone, building utility costs (gas, electricity, water and sewer) and insurance costs are shown here.

Professional Services

Includes services such as legal, audit and banking charges. Also includes consultant fees.

Contracted Services

Services that are contracted out by the town (policing, animal control) or professional services (electrical or mechanical contractors.)

Grants & Exemptions

Grants paid to other organizations and tax exemptions provided through policy and bylaw.

Debt & Capital Charges

Includes principal and interest charges for long term debt, contributions to reserves or contributions to the capital program.

Other Costs

Include miscellaneous costs or items such as leases.

Portion of Town Expenditures (from Table 3)

Town Council is the legislative and policy-making body of the Town government and represents the residents of Peace River.

The council is the governing body of the municipal corporation and the custodian of its powers, both legislative and administrative. The Municipal Government Act provides that councils can only exercise the powers of the municipal corporation in the proper form, either by bylaw or resolution.

The Mayor and six councillors are elected for a fouryear term. The Mayor is elected at large and the Deputy Mayor appointed for a one-year term at the organizational meeting from the councillors elected at large.

Overall the Council functions are:

- Support and enhancement of Town policies;
- Providing for compliance with and implementation of policy;
- Public relations and communications;
- Overall financial management stability;
- Ensure compliance with all legal requirements,
- Appoint advisory committees and commissions;
- Participate in various county or regional intergovernmental relationships;

- Serve as "ombudsman" to help address constituent complaints and problems: and
- Setting the overall tone, attitude, vision and strategic direction for the organization.

The Chief Administrative Officer (CAO) is the head of the Administrative Department. The Chief Administrative Officer is appointed by Council and is responsible for leading, planning, organizing and directing the administration of the Town of Peace River toward the fulfillment of the goals, objectives and policies as determined by the Council.

The Chief Administrator Officer coordinates the day-today activities of the Town, introduces new methods and procedures among Town departments and apprises the Mayor and Council on operational results. Administration Services also provides support services to the Town's departments in the form of:

- Personnel management;
- Record keeping of actions taken by Council and other official bodies of the town;
- Maintenance of Bylaws and Policies;
- Agenda preparation for Council meetings;
- Apply for grants to fund Town projects;
- Facilitate annual review of the Strategic Work Plan; and
- Maintain the Town's website, Twitter and Facebook communication accounts.

For budgeting and reporting purposes, Administration includes the Office of the CAO along with the

communications, human resources and grants/special projects coordinators.

The department's role is to provide a variety of services to Council, residents, other town departments, and other government agencies.

For budget and reporting purposes, information technology, records management and health & safety is shown within the Corporate Services section.

The Finance division acts as the financial advisor for Council, the CAO, and the various town departments. They coordinate the annual budget process for all civic funds, prepare and maintain the resultant accounting records, and prepare regular financial statements and summaries throughout the year as required. Other activities include paying all town bills and collecting any monies owed to the town.

The service divisions included in this section are accounting, budgeting, accounts payable, and accounts receivable, payroll and taxation.

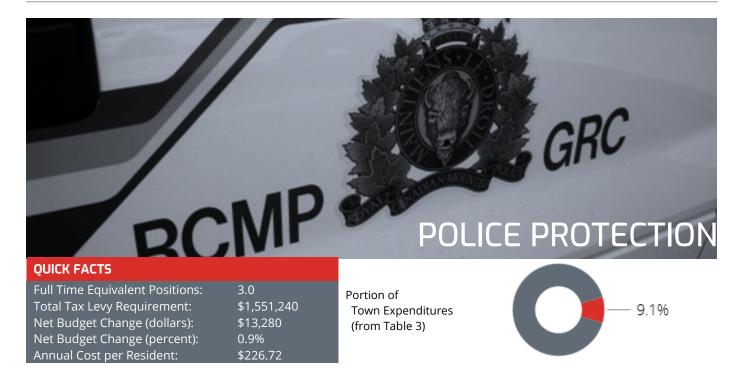

The primary role of Economic Development is to support the organization in the areas of Marketing (Business Retention and Expansion, Investment Readiness/Attraction and Partnership Marketing) and Entrepreneurship and Small Business Assistance.

Police Protection provides for the safety and welfare of the residents of Peace River by participating in the RCMP detachment that serves the town and outlying areas.

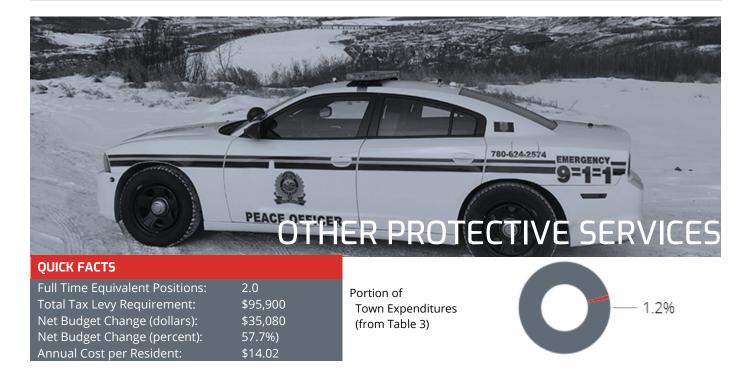

Under the agreement with the RCMP, the Town provides three support personnel for the detachment along with paying for twelve RCMP positions.

The Town of Peace River is the only municipality within 200 kilometres that is required to pay for policing services. Since communities less than 5,000 people have the cost covered by the provincial government, this is an amount that must be recouped through taxes that other municipalities do not have to do.

The Bylaw Department is responsible for the enforcement of bylaws passed by Council for the Town of Peace River. Bylaw Enforcement is committed to serve, protect and provide a desired quality of life for citizens and visitors to the Town of Peace River through education to raise awareness of community standards, and enforcement of Town Bylaws to ensure timely compliance with a professional, unbiased approach.

Business licence and associated revenues are also represented here.

Bylaws are a law, regulation or rules of a local government such as a town, municipal district or county. The Municipal Government Act (Section 7) authorizes Council to establish these bylaws.

Community Peace Officers provides municipal enforcement for the Town, working to ensure compliance with bylaws and investigate incoming complaints. Compliance checks include but are not limited to seatbelt checks and commercial vehicle inspections. Spot enforcement operations are also conducted in high-traffic or problem areas in the Town.

Other protective services include accounts relating to Emergency Management (EMO), animal control and building and fire inspection services.

"Pride, Professionalism, Skill, and Integrity."

Department History

Founded in 1914, Peace River's first firefighters used buckets, lanterns, axes, ropes and ladders to protect the settlement. Rev. Holmes offered the bell from the Shaftsberry Mission as the warning bell.

The department's first test was September 13, 1915 when five businesses were destroyed.

The mural on our hose tower was done in 1991 by Dan Sawatzky of Chemainus, B.C. The Hose Tower images came from three old Black and White photos in the museum's collection and has been clear-coated to protect it from the elements (environmental and manmade). Inscribed on the mural: In honour of the men and women of the Peace River Fire Department, past, present and future who have dedicated their time to making Peace River a safer place to live.

Firefighting & Emergency Response

Peace River Fire Department is our first line of defense against fires or other emergencies in town. The department trains regularly and is able to provide a number of protective services including technical rescues, river and swift water rescue, hazardous material response and many others.

Public Education & Outreach

By working with the public the fire department helps to protect residents and minimize the risk of fires in the community. The fire department works with local schools and agencies to provide education and also to assist in planning and prepping for emergency situations. By planning and educating we're able to help keep Peace River safe.

Inspection Services

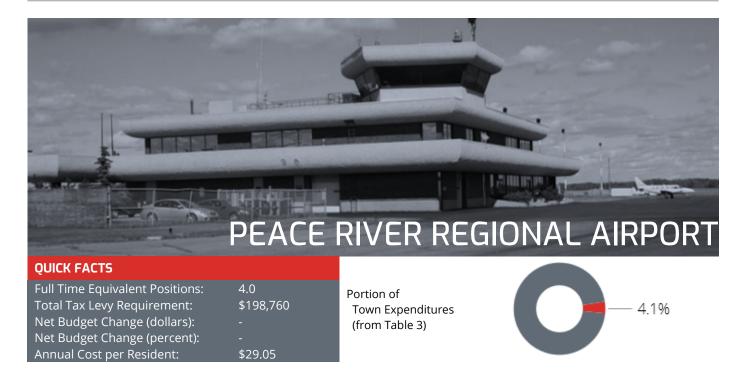

New builds and renovations require a fire inspection, which is required to prevent fires and save lives. Fire Inspectors are responsible for making sure buildings adhere to the Alberta Fire Code and properties are well maintained. The Fire Inspector enforces the Alberta Fire Code ensuring hazards are identified and removed. The Fire Inspector also educates owners and occupants of the buildings in the area about the importance of fire safety.

In cases where the Bylaw and/or the Alberta Fire Code is violated, legal action is initiated. There is the possibility of a fine levied against the owner or business.

The Peace River Regional Airport (PRRA) spans over 250 acres of land including ravines, marshes, farmland and the airport infrastructure itself. Infrastructure consists of one 5,000' by 150' runway, 3 taxiways and one apron. The runway is capable of supporting Boeing 737 aircraft.

Air ambulance services are delivered by CanWest Air which have two aircraft based at the PRRA. Other users include Alberta Environment and Parks, who have a seasonal camp on both the groundside and airside of the airport. Small private aircraft are becoming more common at the field.

The airport terminal building spans an impressive 21,000 square feet. Housed within the terminal is the airport managers office, vehicle rental agency, scheduled flight check in counter, waiting room, meeting room, café and a NavCanada control tower. This tower provides air traffic services for not only the Peace River Regional Airport but also Dawson Creek and evening support for Fort McMurray.

There are currently 4 full time employees performing duties at the PRRA including the airport manager and assistant airport manager. Due to the very nature of the business airport staff are on call 24 hours a day, 7 days a week. During winter months staff is on site 7

days a week with the exception of statutory holidays. Due to air ambulance operations the PRRA requires more around the clock care than a typical field of its size.

Starting in 2017 and continuing in 2020, the town receives funding from the Town of Grimshaw, Municipal District of Peace No. 135, County of Northern Lights and Northern Sunrise County. The participating municipalities contribute to the net cost of the airport based on prescribed allocations.

The Engineering & Infrastructure department is responsible for the administration and management of the Town's Public Works, Water and Wastewater Operations, Planning and Development, and Engineering divisions. They are also manage infrastructure projects, solid waste management, cemetery operations and major facility maintenance.

Net Budget Change (dollars):

Net Budget Change (percent):

Annual Cost per Resident:

The department coordinates the design, tendering and construction of the town's infrastructure from small maintenance projects to large multimillion dollar capital projects. The department typically engages external engineering consultants and contractors for the design and construction of larger projects.

The department also retains external assistance in maintaining its Geographical Information System (GIS) which includes facility mapping and asset management of the Town's road, water & wastewater system infrastructure. The Town currently provides public access to this system for the benefit of residents and commercial businesses.

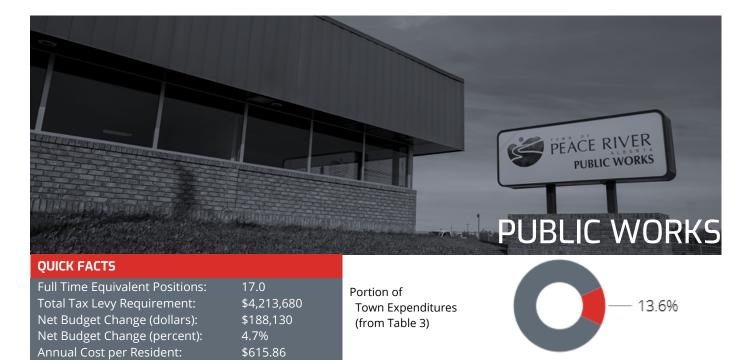

The department also coordinates with Federal and Provincial counterparts in the delivery of Federal and Provincial capital projects and services. This includes coordination for the new second bridge project being constructed by Alberta Transportation.

In addition to technical support to other Departments, the Engineering section also provides approval and coordination of road closures, plan checks for the coordination of utility underground systems.

Public Works is responsible for the upkeep of transportation infrastructure, consisting of 85km of paved road surface with another 14km of maintained gravel roads. These responsibilities also include:

Lastly they provide fleet maintenance support to all Town vehicles and provide general labour for town maintenance activities, including solid waste removal of downtown waste receptacles.

- Road maintenance:
- Snow removal;
- Street and downtown sidewalk sweeping;
- Pothole repair and asphalt patching;
- Street signage; and
- Sidewalk/curb repair.

In conjunction with Water /Wastewater Operations, the Department also provides maintenance of the Town's water distribution system, sanitary sewer collection systems and storm sewer system. This includes repair of water main breaks and closure of storm gates during river freezeup and breakup. Public works maintains fire hydrants and pressure reducing valves as part of the water distribution system.

Public Works is also responsible for base building facilities maintenance support for the Town's 14 structures. Minor renovations for facilities are completed in house and any trade support is contracted out.

Operated under the Town's Engineering & Infrastructure Department, Planning and Development play a central role in land use planning and community development within the Town of Peace River. Planning & Development works to ensure that development takes place in an organized, well-planned way, and in compliance with all provincial and municipal legislation, while also maintaining and enhancing the natural and man-made environments that contribute to a high quality-of-life. Planning & Development manage strategic planning initiatives, development approvals and land matters in the Town, based on the Town's needs and Council's corporate vision.

The purpose of the Planning & Development Department is to ensure that the environmental, social, and fiscal effects of development proceed in a responsible fashion. The main duties of the department are to manage development and advise Council, its Committees, and other Town Departments on issues related to the development of the community.

The department manages all aspects of planning and development including preparation of long-range plans, preparing bylaw amendments as required, processing of rezoning applications, development agreement applications, subdivision applications,

building and development permits, in-house mapping services and zoning certificates.

OUICK FACTS

Full Time Equivalent Positions: Total Tax Levy Requirement: (\$116,740) Net Budget Change (dollars): (\$29,020) Net Budget Change (percent): 33.1% Annual Cost per Resident: n/a

Portion of **Town Expenditures** (from Table 3)

Note about tax impact: Properties are charged solid waste and recycling fees through utility billings and not via general taxation. While the sub-department shows that revenues exceed expenditures, the town does not allocate municipal expenses (such as some staffing, Council, communications or other costs) towards solid waste; if that was done, the service would likely be cost neutral.

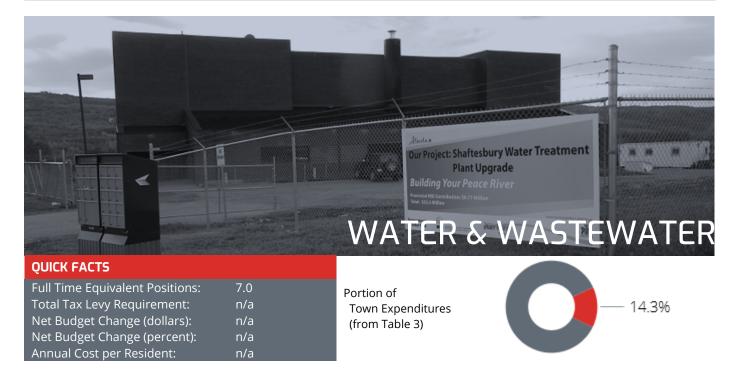

Residential waste and recycling pickup and disposal services in Peace River are contracted to Green For Life (GFL) Environmental. Residential properties have waste and recycling pickup once per week.

Both services are handled by one company; residential waste is taken to the Peace Regional Landfill and recyclables are taken to GFL's processing facility in Edmonton. In Peace River, about 2.5 tons of recycling are collected each week taken to Grande Prairie where it is then bailed together with recycled material collected from around the region and sent onto Edmonton where it's sorted at a GFL processing facility.

Seven Water/Wastewater Operations staff operates to provide safe drinking water and the collection of sanitary sewer wastewater effluent. They operate and maintain the following facilities:

- Water Treatment Plant located on Shaftesbury Trail;
- Water Treatment Plant located at the airport;
- Four water reservoirs;
- Two water pressure booster stations;
- One bulk water transfer station;
- Wastewater Treatment Plant located north of Good Shepard School;
- Biosolids and Drying Bed and Leachate Pond located on Weberville Road;
- Six sanitary sewer system lift stations; and
- Sanitary sewage lagoon at the airport.

The water and wastewater staff also maintain residential and commercial water meters, aquaflo devices, and water bleed devices. During an average year the Town provides approximately 1.6 million cubic metres of treated water and treats approximately 1.1 million cubic metres of sanitary sewer wastewater.

Water and Wastewater staff also attend all water breaks to ensure isolation and disinfection procedures are completed in accordance with our water licence and Canadian drinking water guidelines to provide residents with clean and safe potable drinking water.

Family and Community Support Services

Family and Community Support Services (FCSS) provides programming that is designed to deliver social programs that "...are preventive in nature and are provided at the earliest opportunity in order to promote and enhance well-being among individuals, families and communities."

Peace River FCSS provides free prevention based family and youth programming and free community events that help promote the importance of family relationships. FCSS also provides links to other organizations that might provide further prevention based opportunities to the public.

FCSS is an 80/20 funding partnership between municipalities or Metis settlements, and the province, provided through the FCSS Act and Regulation.

Local FCSS programs depend on community resources, often involving volunteers in both the management and delivery of their programs. They work in partnership with other service providers in the community to try to prevent the need for intervention and rehabilitation services, by offering services which help to strengthen individuals in their everyday lives.

The principle is based on a belief that self help contributes to a sense of integrity, self-worth and

independence, and a "people helping people" approach to improving an individual's quality of life and build their capacity to prevent and or deal with crisis situations should they arise.

Senior Support Services

The Community Services Department provides programs designed for our senior population. The Home support program provides in home light housekeeping services. This service strives to assist seniors to maintain independence while living in their homes for as long as possible. In addition, they offer a Meals on Wheels program. Meals on Wheels is dedicated to supporting your health, well-being and independence. They work with an enthusiastic team of volunteers to prepare, package, and deliver nutritious, wholesome, home-style meals to anyone who qualifies for temporary or long-term meal assistance. Meals are prepared and delivered to the clients home throughout Peace River, once per week.

Family & Youth Programs

Family and youth programs include parenting workshops, Lego Club Roots of Empathy programs, Home Alone program and other community programs and training.

Volunteer Supports

Through the FCSS program, supports for volunteer engagement and recruitment are offered. A "Volunteer Hub" is available on the Town website, to assist local clubs and organization to connect with volunteers. A Volunteer Award program was created to recognize our exceptional volunteers. 2020 programming will include Volunteer support workshops and resources to assist our not for profit clubs and organizations.

Family Resource Network

Family Resource Network (formerly Peace Parent Link)

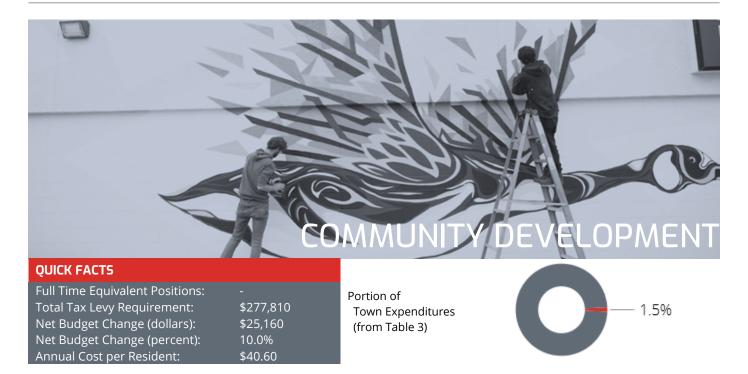

The Peace Parent Link program has been 100% funded through a grant from the Province of Alberta, Children's Service. The Province provided notice that Parent Link Centres will no longer be funded after March 31, 2020.

A new model for family/child focused services has been posted for public bid, called Family Resource Networks. The Town of Peace River has submitted a proposal for operation of a Family Resource Network, to serve Peace River and region. Alberta Children's Services is to make a decision on the funding by mid March and if successful, the program will operate from the Baytex Energy Centre starting April 1, 2020.

Community development includes community programs, downtown beautification along with transportation and public health initiatives.

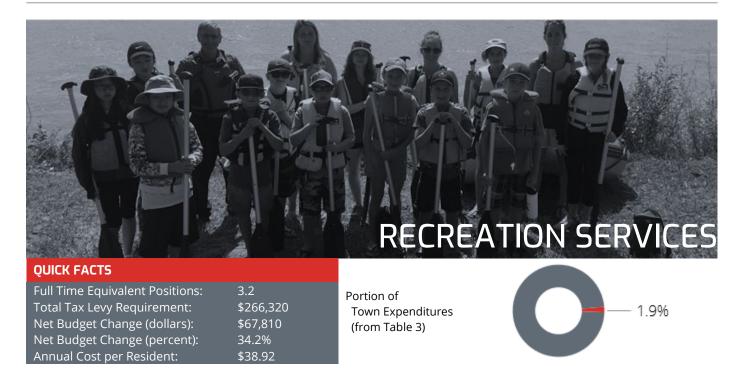

Downtown beautification has been a priority of Council. The implementation of a beautification plan has included new garbage cans, benches and bike racks. Public art will continue in 2019 with another new mural.

This budget includes the Taxi Pass program, which offers a form of transportation support to eligible clients. The program serves over 200 clients and provides over 20,000 rides a year, with clients receiving an 85% subsidy for each ride.

The Community Services Department is responsible for overseeing and managing the recreation facilities of the town and for providing recreation programming.

During the summer the recreation section of the Community Services Department also organizes two summer day camps in July and August. One program is designed for youth from 10 to 14-years-old and focuses on outdoor activities. Summer Fun is for children six to 10-yearsold and features crafts, games, tours and recreationally based activities for children.

The 2020 budget will offer more recreation and sport programming through the new Baytex Energy Centre, including summer sport camps. Community events are provided throughout the year such as the Easter Eggstravaganza, Canada Day celebrations and the Christmas season 'kick-off' event – "Light up the Park."

The new Baytex Energy Centre opened October 2019!

The new facility offers:

- NHL Sized rink
- Field House 3 courts
- Fitness Room (weights, fitness equipment)
- 3 lane walking track
- Indoor Children's Playground
- Concession
- 3 Community Rooms
- Meeting Room

The multiplex concept will expand the user base for the facility beyond "ice users", thus enhancing recreation and fitness options to all ages of the region.

Drop in programming is being offered for recreational sports such as Pickleball, basketball, and open court time for all ages. New leisure programs also includes family events; such as Skating with the Navigators and Family Day event.

The Canadian Natural Resources (CNR) Fieldhouse will offer opportunities for private rentals for birthday parties, drop in activities and tournaments for multiple sports. User groups are able to book time for leagues and club sports in basketball, volleyball, and pickleball. The walking track offers refuge from the cold in the

winter months and allow community members of all ages to enjoy walking indoors all year long.

Family Resource Network (formerly Peace Parent Link) will be leasing 2 of the 3 community rooms on the second floor, which will enhance the services offered at the facility in addition to improved community access to this provincial award-winning Early Childhood Development program.

The Peace Regional Pool is one of the most popular facilities in Peace River among visitors and residents

alike. Over 60,000 visitors come to the pool on an

annual basis. In 2019, our visits were up to 65,362.

\$54,410

Net Budget Change (dollars):

This fabulous facility was built and opened to the public in June 1989. The Pool has many attractions that cater to our wide range of visitors, from a water slide for our more adventurous user to a steam room and hot tub for those that like to take it easy.

In addition to its physical features, the pool hosts a full range of programming options, from Aqua Aerobics to Senior/Adult classes.

A main mandate of the Pool is to provide courses and classes to the community focused on water safety education, fitness and enjoyment in the water for all ages. The Pool offers annually:

- Standard First Aid Courses
- Health Care Provider First Aid Courses
- Child Care First Aid Courses
- Babysitting Courses
- Aqua Aerobics classes
- Junior Lifeguard Club
- Adult Swim Club
- Bronze Medallion Courses
- Bronze Cross Courses

Other programs include lessons for all ages, 6 months to 99+. Summer, after school and Saturday lessons are offered to the community with over 4676 individuals attended lessons throughout 2019. The Pool has a significant and successful partnership with the local schools, offering Red Cross School Swimming Lessons to help improve skills, fitness and prevent injury. Over 8,661 school children were enrolled in swimming lessons or participated in a school swim in 2019.

Two swim clubs utilize the facility hosting swim meets and weekly practices. The Wahoos Swim Club operates from October to April and the summer Porpoise Swim Club operates May through August.

In Peace River, parks and recreation facilities fall under the auspices of the Community Services Department. With 17 kilometers of walking trails and 22 hectares of green space there is a lot to oversee and maintain. The department handles all recreational activity focusing on facilities like the Baytex Energy Centre and Peace Regional Pool, as well as two sledding hills, during the winter months. In the spring and summer that attention turns to the eight different ball diamonds in town, six sports fields, four tennis courts, 13 playgrounds, two larger events parks (12 Foot Davis and Riverfront Park), as well as an off-leash dog park and a spray park. The Town stays in bloom with 65 hanging baskets downtown and over 7,000 bedding plants, all of which are watered three times a week.

Indoor Facilities:

- Peace Regional Pool
- Peace Regional Recreation Centre

Outdoor Facilities:

- 7 Slo-pitch/Fastball Diamonds
- 1 Baseball Diamond
- 6 Sports Fields (4 soccer, 2 football) 4 of which are part of the School Joint Use Agreement
- Newly refurbished Lower West Peace Tennis and Pickleball Courts
- 12 Playgrounds
- 4 Outdoor Skating Rinks

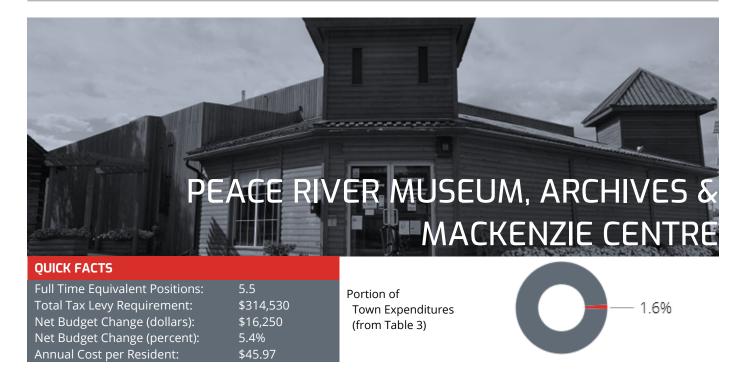

- Curtis Marshall Skatepark
- Walking Trail System
- 2 Events Parks
- Water Play Park
- Various green spaces, including 2 toboggan hills and a dog off leash area

The town also financially supports Misery Mountain Ski Hill, paying for utility, insurance and some repair costs to the chair lift.

The Peace River Centennial Museum was opened in 1967 as part of the Town's celebrations of Canada's Centennial. The Sir Alexander Mackenzie Historical Society, the Town of Peace River, and the Women's Institute were instrumental in establishing the site and collection of the museum.

The Town of Peace River took over ownership of the museum in 2003. The facility was expanded in 2004 and 2006. The name changed to the Peace River Museum, Archives and Mackenzie Centre in 2007.

They strive to fulfill their Artefact Collections Mandate "to collect, preserve and make publicly accessible tangible objects that are considered to be significant to, and representative of, the human and natural history of the Town of Peace River and Shaftesbury Settlement."

Equally important is the Archival Collections Mandate to: "collect, preserve and make publicly accessible the documentary history of the Town of Peace River and the North Peace Region. To this end, we will accept material from within the following municipalities: Town of Peace River, County of Northern Lights, County of Northern Sunrise, Clear Hills County, Municipal District of Peace and Municipal District of Fairview."

Mission Statement

"To engage, stimulate, and connect the community by providing access to resources, tools, and opportunities."

Vision Statement

"Our Library is a highly-utilized, welcoming, and accessible community gathering space, which inspires lifelong learning and creativity."

History

The first library in Peace River was established by the IODE in 1934, funded through a profit of \$90.00 raised by a production of the operetta "Oh Doctor" at the Boyd Theatre. The profit raised through several performances enabled the library to acquire shelves and books. Norman Soars was appointed librarian and the library was housed in the Town Hall. During the following years the library was manned entirely by volunteer staff.

Many fine books were donated, some of which depicted the trials of the pioneers in the North Country of Peace River. Until 1959, the library was designated a Community Library which limited the funds available to it. That year the taxpayers were petitioned to change the designation to Municipal Library thus enabling the library to claim more funds from both provincial and

local governments. A move into the newly renovated Town Hall gave the library a much needed boost as did the custodianship of Mr. Ken Bowen and Mrs. Eve Whitmey. In 1982 the library moved into the vacant Health Unit building, its current location.

Activity

The library is a busy place. Most recent information shows they have over 48,000 in-person visits annually and have a collection of over 32,000 items. In 2017, they loaned out 57,272 physical items and over 9,000 e-resource materials.

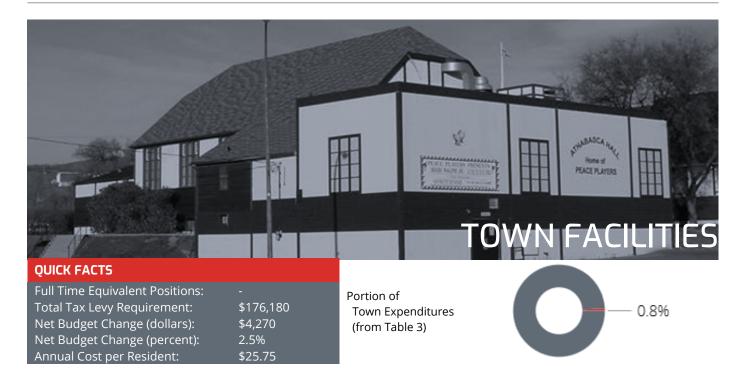

The library hosts numerous programs, with an average of 27 programs each month. Recent numbers show these programs were attended by 30 teens, 165 adults, and 227 children.

They have new art exhibits each month and events in the gallery bring in people who may or may not otherwise use the library. Meetings in one of the library's two meeting rooms bring in people from around the region. Tourists, workers, regional residents, and students come in to access the computers or free Wi-Fi, read magazines and newspapers.

The Corporate Expenses section of the operating budget is comprised of several elements which have not been identified within specific departments. Expenditures and revenues in this classification generally pertain to town operations as a whole or the benefits are shared across the entire Town.

General Government are costs that support the general operations of the town, including audit, legal, general liability insurance, grants to organizations and general communication costs. Revenues consist of interest charged on outstanding accounts, investment income, transfers from reserves or general contributions from other municipalities.

Taxation services include the cost for contracted assessment services, property bill preparation and mailing costs, and property tax exemptions as allowed under the Municipal Government Act.

REVENUES

Revenues have been broken down into three categories; departmental revenues that can be allocated towards a specific department or activity (which reduces that department's Tax Levy Requirement), requisitions collected for other entities, and corporate revenues are considered general in nature. The tables below show a breakdown of the different revenue types.

DEPARTMENTAL REVENUES

Activity Revenues

Activity revenues are revenues that are a direct result of the operations of individual departments. Recreation programs and planning fees are examples of activity revenues.

Most activity revenues are budgeted using trend analysis mixed with anticipated usage or uptake, and may be variable from year to year. Others, such as sewer taxes, are based on assessed data and are known when the budget is assembled.

Grants

Grants are transfers from other levels of government or agencies, normally to cover shared or purchased services. Employment grants from federal and provincial agencies are also shown here.

Grants amounts are generally known during budgeting as they are negotiated amounts or based on prior year actuals.

Revenues from Own Sources

Includes revenues or transfers controlled by the town and approved during the budget process.

REQUISITIONS COLLECTED FOR OTHER ENTITIES

Funds collected for third-party organizations that have the ability to requisition property taxes on our residents, in this case for the North Peace Housing Foundation and for educational purposes.

CORPORATE REVENUES

Taxation

Taxation represents the largest source of revenue for the General Fund, providing nearly 43% of the operating revenue.

KCL Consulting is responsible for property assessments on behalf of the town. This physical assessment of the entire Town takes place over the span of five years, which is then broken down into a period of annual physical assessments. Each year, typically throughout the fall season, a property assessor comes and physically views 20 per cent in the town. Assessment rolls for the year are delivered to the town in the spring to allow for tax billing purposes. Allowances and contingencies for appeals and other changes to property values are estimated within the budget.

Other Revenues

Includes revenues generated by the town through general operations, and cannot be allocated to any one department or activity, such as interest on outstanding taxes.

These revenues are estimated using historic data with future projections, and tend to be conservative in nature.

Departmental Revenues Table 28

The purpose of the capital improvement plan is to forecast and match projected revenues and major capital needs over a five-year period. Capital planning is an important management tool that strengthens the linkages between community infrastructure needs and the financial capacity of the town.

The Town of Peace River faces the challenge of meeting the needs of its residents for public services and facilities with increasing costs and relatively fixed revenues. To be able to effectively set project priorities, the town prepares a Capital Improvement Plan (CIP.)

CAPITAL IMPROVEMENT PLANNING

A Capital Improvement Plan is the preparation and updating of a schedule of public works projects and related equipment to be built or purchased by the Town within a period of five years. It covers the entire range of public facility and service requirements. The CIP lists all future projects along with cost estimates and the anticipated means of financing each project.

Capital improvements are public improvements involving the expenditure of public funds, over and above normal annual operating expenses, for the purchase, construction or replacement of specific physical facilities or assets of the community. Examples include, but are not limited to:

- the construction of bicycle & pedestrian pathways,
- parks improvements,
- · the renovation of community owned buildings,
- the purchase of land,
- · vehicle or equipment purchases,
- construction of water and sewage treatment facilities.
- extension of water and sanitary sewer lines,
- and others.

The town defines capital expenditures as any expenditure of major value that recurs irregularly, results in the acquisition of a fixed asset, and has a useful life greater than one (1) year.

The first year in the plan is referred to as the "capital budget" and includes those projects scheduled to be funded in the upcoming fiscal year. The succeeding years' schedule of projects make up the Capital

Improvements Plan and serve as a mechanism for tracking and planning for future needs.

Benefits of a Capital Improvement Plan

The CIP is updated annually in order to fine-tune the capital budget to reflect changing economic conditions and to reflect the need for additional projects or adjust the priority of projects as necessary.

The capital improvement plan is simply that – a plan. As such, projects are subject to change based on new or shifting service needs, special financing opportunities, emergency needs, or other directives or priorities established by Council. Because priorities can change, projects included in outward planning years are not guaranteed for funding.

The Peace River CIP achieves five major objectives as a component of the Town's budget and financial planning process:

- Helps the town rationally and intelligently plan for the repair, replacement, and acquisition of capital items that are necessary in providing high quality services to the citizens of Peace River.
- Assists in fiscal planning by forecasting capital demands together with future revenues and expenditures (as part of the financial plan).
- Insures better coordination, evaluation, and planning of projects to serve the community and its needs.
- The CIP, together with the Financial Plan, serves as a guide to decision-making for Council, the CAO, and employees.
- The systematic and comprehensive analysis of capital needs increases the probability of making rational (and correct) budgetary judgments since improvements are identified, prioritized, and matched to the projected fiscal resources of the town.

CAPITAL IMPROVEMENT PLAN FUNDING

The capital improvement plan has been prioritized and projected based on need and the expected levels of funding available to fund the plan. The town's contributions to the CIP can be defined within three categories:

- Funded from operations projects are partially or fully funded through the current year's operating budget.
- Funded from reserves projects are partially or fully funded through capital reserves. Capital reserves balances can be funded through contributions from the operating budget,

contributions from developers (ie off site levies) or by the sale of capital assets.

 Debt – projects are partially or fully funded through the use of long term debt.

Contributions from other governments or organizations can also fund the capital program and include the following categories:

- Federal Gas Tax currently provides \$365,700 annually in federal funding to invest in eligible municipal infrastructure, such as water, wastewater and transportation projects.
- Municipal Sustainability Initiative helps support local infrastructure priorities and build strong, safe and resilient communities. Peace River is expected to receive approximately \$1,562,000 in 2020, a result of provincial budget impacts and approximately 10% less than prior years.
- Other Federal Funding includes conditional funding from federal grants or government agencies, such as Small Community Fund.
- Other Provincial Funding includes conditional funding from programs offered through provincial departments; examples would be the Alberta Community Resiliency Program (ACRP) or the Alberta Municipal Water/Wastewater Partnership (AMWWP)/ Water for Life program.

 Other Revenue – includes funding from other municipalities, third parties or development charges

In preparing the CIP staff followed these guidelines concerning Town contributions.

LONG TERM DEBT

The total current debt obligations are \$19,787,192 (\$21,620,918 in 2018), as illustrated in the chart below.

The increase in 2018 is the debenture of the Peace Regional Recreation Centre, with debt funding of \$9.45 million being incurred by the town, plus the debenture required for the 99th Street Slide. Existing debt is shown in dark blue.

Approved debt are debentures that have that have been approved by Council in 2019 and are awaiting the receipt of funds from the Alberta Capital Finance Authority. These total \$4,461,000 in water and sewer projects, including Reservoir 365 replacement and the Lift Station 4 and Shaftesbury Sewer Main Pt 2 projects. Approved debt is shown in red, and are putting significant pressure on water rates.

Projected debt in shown in grey. This includes the \$1,430,000 in debt required to fund the 2020 capital program (Table 31) plus projected debentures on \$1,000,000 from 2021 to 2024.

Water and wastewater projects will likely incur significant debt funding over next five years and are one reason for the increase in 2020.

Future years capital expenditures have been planned to strive to avoid significant increases in tax rate and water rates. With the withdrawal of Federal and Provincial funds from infrastructure programs, which have been mainly cost shared, rate increases may be required to fund the required rehabilitation needs. The forecasted debt to be outstanding is illustrated in the following chart.

The movement towards funding capital projects through the tax rate will stabilize our reliance on debt and leave the town in good financial shape while providing flexibility to fund future projects.

PROJECTED DEBT

Based on projections, the town's debt limit should rise to approximately 59.2% by the end of 2020 (up from 51.9% in 2019). This will still provide the town with borrowing capacity, and the repayment of this debt has been built into the operating budget.

2020 CAPITAL BUDGET

The 2020 Capital Budget includes 16 projects totalling \$7,698,500. The projects incorporated in the CIP for 2020 have been classified by department or service area, and are shown in detail on Table 31 (page 86). Only projects that would commence in 2020 have detailed project information.

The projects have been classified on the basis of the predominate department to indicate what the impact would be on the tax rate or water & wastewater for the town. This classification also allows the reader to gain a clearer understanding of each of the major capital expenditure envelopes, the source of financing, specific pressures and impacts on the users due to rate increases in the general tax rate or specific user fees.

Information Technology

Hardware Replenishment - \$24,000

Replacement of town hardware and network infrastructure - town systems need to be replenished on a regular schedule to ensure adequate performance. Work for 2020 includes network components, storage solutions, wiring upgrades and system and peripheral upgrades.

Fire Protection

Front Line Fire Apparatus - \$1,400,000

A new Fire Department pumping apparatus is required to replace the existing frontline response unit to maintain insurance rating for the Town. Council has approved the purchase of a ladder truck to ensure the protection of the Town.

SCBA Decontamination Equipment - \$30,000

Regular cleaning of PPE is important and helps reduce firefighters' long-term exposure to harmful contamination. This equipment will assist in the decontamination of self contained breathing apparatus (SCBA) and other items with hard surfaces.

Commercial Washer/Extractor - \$20,000

Contaminated protective gear exposes firefighters to potentially life-threatening chemicals, biological agents and particulate matter. If not dealt with properly,

soiled protective gear can also pass on contaminants to the public at large. The key to limiting a firefighter's exposure to such hazards is proper decontamination of soiled gear which can be laden with life-threatening chemicals, blood, body fluids or particulate matter after a fire, car accident or similar event.

Works & Transportation Systems

Neighbourhood Infrastructure Renewal Program - \$1,800,000

In accordance with our Neighbourhood Infrastructure Renewal project initiative this project will aim at replacing existing water, sanitary and storm sewer, roads and sidewalks not covered under other projects to ensure that we are in compliance with our strategic initiatives (1% of total infrastructure). Engineering to be completed in the year prior to construction.

- 2020 106th and 108th Avenues between 101st and 103rd Street
- 2021 94th and 95th Avenues between 96th and 98th Street
- 2022 99th Street between 105th Avenue and 112th Avenue
- 2023 84th Avenue between 94th Street and 98th Street
- 2024 85th Avenue between 94th Street and 98th Street

Heavy Equipment - \$270,000

This project is to replace our aging heavy Equipment Fleet. 2020 will see the replacement of a 1993 Front End Loader (FEL) with an equivalent model.

Pavement Overlay - \$250,000

This project is to provide paving overlay as part of the road asset maintenance program to extend the overall lifecycle of our existing paved roadway surfaces. Project includes milling, paving and selective replacement of concrete curb and gutter where required. The project also provides for selective correction of grade issues where required. Current paved surface lifecycle is 35 years with proper maintenance including crack sealing, pothole patching, and spray patching.

Sidewalk Replacements - \$75,000

Annual sidewalk replacement program. Based on 2.475km of annual replacement from 2018-2030 and

lifecycle of 40 years. This project takes into consideration that NIR project will replace a minimum of 300m of sidewalk under that program. Pricing based on Alberta Transportation unit prices at \$264/m. Considers monolithic concrete sidewalk curb and gutter.

Facility Security System Upgrades - \$36,000

This project is to replace the security system for the various facilities to standardize the system within the Town.

Columbarium - \$40,500

This project is to provide a Columbarium for cremation remains which will reallocate space from cremation burials to standard burial plots.

Town Hall Cladding - \$6,000

This project is to complete renovations for the Town Hall over the next 5 years.

Planned projects are:

- 2020 Cladding Upgrades
- 2021 Lighting Upgrades
- 2022 Council Chamber Upgrade
- 2023 Interior and Exterior Painting
- 2024 Mechanical and HVAC Upgrades

Parks & Recreation Facilities

Tractor/Toolcat - \$50,000

Purchase of a multi-use tractor for the Baytex Energy Centre to assist in sidewalk and parking lot clearing for both arena and pool facilities.

Water & Wastewater Systems

Lift Station #4 Replacement - \$32,000

This project is for the Replacement of Lift Station No. 4 located in Lower West Peace as part of the Building Canada SCF Project and is Phase 5 of the Building Canada Water and Sewer Projects. Building Canada budget was \$1.06M for this phase. The lift station capacity is dependent on also completing the Shaftesbury Sewer Part 2 project and will not only provide vertical lift of the system from Lower West Peace and Shaftesbury, but also force main capacity required to get the sanitary sewer flow to the Pines area.

\$1,067,100 has already been approved in the 2018 and 2019 capital budgets, the \$32,000 is the amount required to finish the project.

Shaftesbury Sewer Main Part 1 - \$3,240,000

This project is for the Shaftesbury Sanitary Sewer Trunk Main - part of the Building Canada SCF Project. This phase is from the new line installed in the Pines project to the southern phase boundary of the Citadel property. The initial Building Canada budget was \$1.8M for this phase.

STP Aeration Tank Cleaning - \$375,000

This project is for cleaning the WWTP aeration tanks which are required every 10 years. The project will allow the cleaning and inspection of the tanks to insure integrity of the wall construction.

Meter Read Software - \$50,000

This project is to expand the existing Neptune Radio system used for water meter logging and data transfer. The expansion will save on staff time used for collecting data logs for billing and resolving resident issues on water usage.

APPENDIX I · GLOSSARY

The annual budget contains specialized and technical terminology that is unique to public finance and budgeting. To assist the reader of the annual budget document in understanding these terms, a budget glossary has been included in the document.

ACCRUAL ACCOUNTING

The town's sources of financing and expenditures are recorded using the accrual basis of accounting. This basis recognizes revenues as they become available and measurable and expenditures as they are incurred and measurable as the result of receipt of goods or services and the creation of a legal obligation to pay. This is also the basis for developing the town's budget.

APPROVED BUDGET

The final budget passed by Council, which will govern the operations and reporting during the fiscal year.

ASSESSMENT

A value established by the town's assessors for real property for use as a basis of levying property taxes for municipal purposes.

ASSETS

All property, both tangible and intangible, owned by an entity.

AUDIT

A comprehensive examination of the manner in which the town's resources were actually utilized. A financial audit is a review of the accounting system and financial information to determine how government funds were spent and whether expenditures were in compliance with the town's appropriations.

BALANCED BUDGET

A plan of financial operation where total revenues match total expenditures. It is a requirement of the town to approve a balanced budget annually.

BASE BUDGET

Budget resources that are required to maintain service at the level provided in the previous year's budget.

BUDGET

A financial plan for a specified period of time (year) that matches with all planned revenues and expenditures with various town services.

BUDGET CALENDAR

The schedule of key dates or milestones which the town departments follow in the preparation, adoption and administration of the budget.

BUDGET MESSAGE

The opening section of the budget which provides Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years and the views and recommendations of the Manager of Finance.

BUDGET RESOLUTION

The official enactment by Council establishing the legal authority for the town to obligate and expend resources.

CAPITAL BUDGET

A plan of approved capital expenditures to be incurred in the current year and over a period of subsequent future years (long term), identifying each capital project and the method of financing.

CAPITAL PROJECT

Projects, which purchase or construct capital assets. Typically, a capital project encompasses a purchase of land and/or the construction of a building or infrastructure.

CHARGE FOR SERVICE

User charge for services provided by the town.

CONTINGENCY ACCOUNT

A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

DEBT

A financial obligation resulting from the borrowing of money. Debts of governments include bonds, notes, and land contracts.

DEBT SERVICE

Amount necessary for the payment of principal, interest, and related costs of the general long-term debt of the town.

DEFICIT

The excess of an entity's liabilities over its assets (see Fund Balance). The excess of expenditures or expenses over revenues during a single accounting period.

DEPARTMENT

A major administrative subset of the town which indicates overall management responsibility for an operation or a group of related operations within a functional area. A department is often comprised of several divisions.

ENCUMBRANCE

The commitment of appropriated funds to purchase an item for service. To encumber funds means to set aside or commit funds for a future expenditure.

EXPENDITURE

Use of financial resource for current operating expenses, debt service, capital outlay, and intergovernmental transfers.

FIXED ASSETS

Assets of long-term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

FULL TIME EQUIVALENT POSITION

A measure to account for all staffing dollars in terms of their value as a staffing unit. For example two (2) halftime positions would equate to one (1) FTE.

FUND

An accounting entity with a self-balancing set of accounts containing its own assets, liabilities and fund balance. A fund is established for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

FUND BALANCE

The difference between revenues and expenditures. The beginning fund balance represents the residual funds brought forward from the previous year (ending balance).

GENERAL FUND

The general fund is the general accounting fund of the town. It is used to account for all financial resources except those required to be accounted for in another fund.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

Criteria used by auditors to determine if financial statements are fairly presented.

GRANT

A monetary contribution by one governmental unit or other organization to another. Typically, these contributions are made to local governments by the Provincial and Federal Governments.

GRANTS IN LIEU OF TAXES

A contribution by benefactors of town services who are tax exempt, i.e. government agencies, certain utilities, who chose or must pay a "tax equivalent amount".

INFLATION

A rise in price levels caused by economic activity.

INFRASTRUCTURE

The facilities and assets employed by the town to deliver services. These facilities and assets are numerous and are not limited to roads, water & wastewater, buildings and vehicles.

INTERGOVERNMENTAL REVENUE

Revenue received from another government in the form grants and shared revenues.

INTERMUNICIPAL COLLABORATION FRAMEWORKS

Municipalities are required to have collaboration frameworks that specify what and how services are funded and delivered by April 1, 2020.

INTERMUNICIPAL DEVELOPMENT PLAN

A plan developed jointly by two or more neighbouring municipalities to manage decision-making for an area of land in close proximity to the shared boundary.

INVESTMENT INCOME

Interest and dividend income received from investments and cash balances.

LIABILITY

Debt or other legal obligations arising out of transactions in the past, which must be liquidated, renewed or refunded at some future date.

LINE ITEM

A basis for distinguishing types of revenues and expenditures.

MISCELLANEOUS REVENUES

Revenues which are not required to be accounted for elsewhere.

PROGRAM

A group of activities, operations or organizational units directed to attain specific objectives and are accounted for as such.

PUBLIC SECTOR ACCOUNTING BOARD (PSAB)

The subcommittee of the Canadian Institute of Chartered Accountants which provides recommendations and issues pronouncements to enhance the financial reporting information of public sector bodies.

PURCHASED SERVICES

Services rendered to the town by private firms, individuals, or other government agencies. Examples include equipment maintenance, janitorial services, and professional services.

RESERVED FUND BALANCE

For governmental funds and expendable trust funds, the portion of fund balance that is not available for appropriation because it is either legally restricted (e.g., encumbrances) or not spendable (e.g., long-term receivables).

RETAINED EARNINGS

Net income and losses of all prior periods adjusted for transfers and amounts of depreciation charged to contributed capital.

REVENUE

Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

SALARIES & BENEFITS

Items of expenditure in the operating budget for salaries and wages paid for services performed by town employees.

TAXES

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people.

TAX LEVY

The total amount to be raised by general property taxes for operating and debt services purposes.

TAX LEVY REQUIREMENT (TLR)

This represents the total gross expenditures required with consideration given to non-taxation revenues including all non-taxation revenue sources. The gross expenditure minus the non-tax revenue sources represents the impact on the tax rate. If the impact results in a positive number, additional pressures would result on the tax rate; conversely, a negative number shows the initiative has a positive impact on the tax rate.

TAX RATE

The rate levied on each real property according to assessed property value and property class. In Alberta, the amount is levied for each \$1,000 of valuation.

TRAINING & DEVELOPMENT

Items of expenditure for travel and training costs incurred by the town on behalf of employees. These include mileage, meals, conferences, conventions and other travel.

UNIFORM ASSESSMENT

The total of the taxable property assessment plus the value of grants it receives from special property tax arrangements. One measure of a municipality's financial health is its own-source revenue base as represented by the total uniform assessment.

USER CHARGE/FEE

The payment for direct receipt of a public service by the party benefiting from the service.

WATER & WASTEWATER FUND

The water & wastewater fund tracks water and wastewater revenues and expenses; this is done within the general fund but is segregated with its own discreet accounts. As industrial and institutional users are significant users and funders of the system, expenses of the fund are kept separate of the general fund for billing purposes.

APPENDIX III · STAFFING

Approved staffing is expressed in terms of full time equivalents of FTE's. One FTE is equal to 1,950 or 2,080 hours per year, depending on the position. FTE's may consist of full time, part time, temporary, seasonal and casual positions.

Staffing Complement

Table 31

	Approved FTE 2020	Approved FTE 2019
Administration	5.0	5.0
Corporate Services	5.0	5.0

APPENDIX IV · THREE YEAR OPERATING BUDGET

In addition to the 2020 budget, the Town of Peace River forecasts a full three year operating budget.

The three year budget forecast is for presentation and planning purposes and includes known or reasonably anticipated revenue and expenditure items – for example, costs for major or scheduled repairs on infrastructure are included in the forecast.

By preparing a three year budget forecast, Council and staff are able to plan and prepare for upcoming expenditures, identify revenue gaps and fully comprehend the impacts of current decisions on future years.

Generally, revenue and expenditure types are projected into future years by increasing by a fixed percent. Examples of these amounts are:

Revenues

- Sale of town services 0.5% to 2.2%
- Airport landings/movements 0.8%
- Facility revenues (pool, arena, museum) 0.7% to 1.6%

Expenses

- Salaries 1.8% this includes potential future wage settlements and increases in actual staffing levels.
 Benefits are increasing at a slightly lower percent.
- Contracted or consulting services 2.2% to 3.6%
- Training and development 2.7%
- Utilities 1.7% to 3.2%
- Vehicle costs 3.4%
- Insurance 2.2%
- Materials, equipment and supplies 1.2% to 4.2%
- Contributions to reserves start at 4.9%
- Building costs 1.8% to 4.3%

Basis of Forecasting

The three year budget forecast is prepared by projecting all accounts based on reasonably assumed percentage increases.

Staff then review and make adjustments for known costs or other changes to these percentage increases. Example of these include:

- Removing single year initiatives from the budget.
 For example, the next municipal election will be in 2021 and was included in that years' budget, then removed for 2022.
- Known revenue of expenditure items. For example, revenue and expenditure assumptions relating to the Baytex Energy Centre have been included.
- Potential or likely revenue or expenditure items.
 Examples include incremental expenditure increases for downtown beautification or some expenditure decreases for contracted services in the Engineering department.

It is important to note that these are forecasts only and used for planning purposes. Council approves its single year budget, including gross expenditures and tax requisition amounts, annually and is not bound by these projections.

The tables in this section are grouped by functions – i.e. Protective Services includes police, fire and bylaw enforcement while Recreation includes recreation administration, programs, arena, pool, parks and other facilities.

APPENDICES

Summary by Department \cdot Three Year operating Budget Forecast

Table 33

	2020 Budget	2021 Forecast	Budget Change (\$)	Budget Change (%)	2022 Forecast	Budget Change (\$)	Budget Change (%)

Requisitions to Other Organizations	3,394,000	3,468,670	74,670	2.2	3,534,570	65,900	1.9
Operating Expenses	22,502,820	23,356,890	854,070	3.8	24,137,740	780,850	3.5
Debt & Capital Charges	4,247,990	4,553,690	305,700	7.2	4,872,950	319,260	7.5
Total Expenditures	26,750,810	27,910,580	1,159,770	4.3	29,010,690	1,100,110	4.1
Departmental Revenue	(10,404,590)	(10,936,530)	(531,940)	5.1	(11,456,070)	(519,540)	5.0
Requisitions Collected for Other Entities	(3,394,000)	(3,468,670)	(74,670)	2.2	(3,534,570)	(65,900)	1.9
Net Operating Expenditures	12,952,220	13,505,380	553,160	4.3	14,020,050	514,670	4.0
Tax Revenue	(11,641,470)	(11,830,240)	(188,770)	1.6	(12,143,890)	(313,650)	2.7
Other Revenue	(1,310,750)	(1,675,140)	(364,390)	27.8	(1,876,160)	(201,020)	15.3
Total Corporate Revenues	(12,952,220)	(13,505,380)	(553,160)	4.3	(14,020,050)	(514,670)	4.0
General Surplus/(Deficit)	-	-			-		

Based on these forecasts, in 2021 net operating expenditures (departmental revenues less total expenses) are projected to increase by 4.3% and in 2021 increase by 4.0% in 2022. To potentially fund these increases, tax revenues could increase by 1.6% in 2021 and 2.7% in 2022. Projected increases to required tax revenue are forecasts only could be mitigated by Council by constraining expenses or through alternative revenue sources, reducing impacts to ratepayers.

These projections do not include unknown or undeterminable revenue sources; one example are the ongoing Intermunicipal Collaborative Frameworks being negotiated between the Town and adjacent municipalities in 2019 and 2020.
