### **1.2 QUESTIONS AND ANSWERS**

- .1 Upon review of the specs it was noted that the closing date on this project is May 25th 2023, but then it reads that this is a Tuesday, However May 25th 2023 falls on a Thursday. I am just looking to clarify the correct closing date for this project.

**A: Refer to item 1.1.1 above.**

- .2 What is the scope of work involved with the railings?

**A: As per the drawings, the existing railings will be removed at the front entry and replaced with new steel railings.**

- .3 Where is the electrical panel located that we are connecting to?

**A: The electrical panel is located in the basement at the southwest side of the building.**

**2.0 ARCHITECTURAL**

.1 No items.

Attachment: No items.
